PROFESSIONAL SUMMARY

- Passionate Full Stack Developer with expertise in scalable, efficient web applications and optimized user experiences. Proficient in modern JavaScript frameworks with a focus on clean code, maintainability, and continuous performance improvement. Proven record of delivering business-critical applications, efficient state management, and RESTful APIs. Strong believer in continuous learning and clean coding principles.
-

SKILLS

Frontend : React.js, Next.js, Redux, TanStack Query, Typescript, JavaScript, HTML5, CSS3, Material UI, Bootstrap,

Backend : Node.js, Express.js, MongoDB, Mongoose, REST APIs

Tools & Platforms : GitHub, Bitbucket, Docker, Postman, Render, Cloudways, Netlify, VS Code, Slack, Notion, Mantis

Additional: Responsive Design, State Management, Code Optimization, API Documentation

PROFESSIONAL EXPERIENCE

NearleTechnology

Coimbatore | Sept 2023 - Present

- **Key Roles:** Code Optimization, State Management, Responsive Design, User Experience (UX) Enhancement, Project Management, Data Visualization, API Documentation, Continuous Integration/ Deployment.
 - **Modern Business Solution:** Developed an ultra-modern Smart Salon Application (Groomgear), Delivery Platform Application(NearleXpress) and Deals Based Application(Nearle Deals) tailored for new-age businesses, providing all-time, everywhere access to business functionalities.
 - **Designed and Developed:** Created a comprehensive delivery and deals web application using React, incorporating libraries to support multiple user roles, including admin, tenants, customers, and riders.
 - **Order Management System:** Achieved 100 % tracking accuracy for orders and riders by implementing a robust order management system covering all stages from order creation to invoicing, streamlining business operations.
 - **State Management:** Leveraged Redux for efficient state management, optimizing state transitions for high concurrency and real-time updates, enhancing performance and user experience.
 - **API Development:** Developed and integrated secure and efficient RESTful APIs and optimised by Tanstack Query, ensuring high performance and reliability for seamless data exchange.
 - **Customer Acquisition:** Increased new customer acquisition by 70%, making the product the fastest-growing at Nearle Technology through improved user experiences and interfaces.
 - **Code Optimization:** Refactored legacy code, reducing execution time by 25% and memory usage by 40% through implementing best practices for clean and efficient coding.
 - **DRY Principles:** Reduced code redundancy by 25% by applying DRY principles, enhancing code modularity and reusability.
-

FREELANCE PROJECT

Deepam Engineering

<https://deepamengineering.in/>

- Developed a comprehensive website for Deepam Engineering, a leading building demolition company in India, showcasing their portfolio and industry accomplishments.
 - Enhanced digital footprint, resulting in a 40% increase in client engagement and a 30% rise in new project acquisitions via the digital market.
-

ACHIEVEMENTS

- Academic Prize winner (2018-2019)
 - Best NSS volunteer (Secretary of NSS) (2016-2019)
-

EDUCATION

ST.Joseph's College , Tiruchirapalli.

BSC, Physics (CGPA - 8.02)

(2016-2019)

Vivekananda Vidyalaya MHS School , Tirukovilur.

HSC - 87.25%

(2015-2016)

SSLC - 96.4%

(2014-2015)
